## GEEBEE PRESENTATION

# GEEBEE

## PRODUCT INFORMATION

### CONCEPT

The GEEBEE is an electric mobipod offering you a new way to get around that is durable, practical and enjoyable.

[mobipod]: a one-person motorized vehicle with two in-line wheels, driven in the standing position.

Enjoy the advantages of the standing position :

**Ergonomic**  
a natural,  
relaxed position

**Safe**  
better visibility  
and handling

**Practical**  
versatile and  
accessible to everyone

**Intuitive**  
Natural reflexes,  
practically no learning curve

**Innovative**  
design based on  
sturdiness and balance

**Fun**  
a unique  
gliding sensation

*A new way to get around with GEEBEE !*

## CHARACTERISTICS

### Unique

Hop on and get moving in an instant. Navigate nimbly and safely anywhere and park easily. Use your GEEBEE every day in a corporate setting or for your outings.

*The GEEBEE makes getting around fun.*

### Customizable

To match your company's branding or to please your personal taste, create a GEEBEE that reflects your personality with our customization options.

*Express your originality.*

### Electric

Opt for emission-free, noiseless electric transportation. Make a difference for the environment and save money at the same time.

*Leave your car behind and hit the road with a GEEBEE.*

### Quality

Solid, efficient and reliable, the GEEBEE is manufactured with care in Quebec by Concept GEEBEE Inc. The GEEBEE will bring you everywhere and stand by you for the long term, with very little need for maintenance.

*Make a sustainable choice.*

## MARKET PRODUCT

*The GEEBEE is very easy to use, requiring practically no learning curve. It is a reliable and extremely practical solution for city services, businesses or individuals, and promotes eco-mobility.*

*The GEEBEE lets you get around the way a bicycle does, only more comfortably. It provides more flexibility than a scooter and greater safety than a personal transporter. It's an alternative to a car in urban settings.*

**Corporate  
travel**

For internal use to get around large facilities, for patrol or logistics activities or for work-work commuting.

**Recreational  
tourism**

A new outdoor activity that lets you be in harmony with nature or discover a city from a new perspective. Offer a one-of-a-kind, unforgettable outing.
